

# UltraKart

## The Best Way To Move And Store Your Commercial Pool Cleaner

The UltraKart is made up of rust-free stainless steel and vinyl coated cast aluminum components to provide safe and portable storage for your commercial pool cleaner, power supply and floating cable. This is an absolute must for facilities that have a number of different personnel handling the cleaner, and for supervisors who are insistent upon the proper maintenance and storage of their cleaner to ensure a long service life.

## UltraKart

**Suitable For All Aqua Products Commercial Cleaners!**

Using an Aqua Products commercial cleaner is now easier and more convenient. The UltraKart can easily be wheeled around your facility making transportation of your pool cleaner damage and accident free. In the off-season, it is the perfect way to store your Aqua Products cleaner safely and conveniently.
